Morning Oregonian.

VOL. XVIII—NO. 106. PORTLAND, OREGON: THURSDAY, JUNE 6, 1878. PRICE—TEN CENTS.

GENERAL NEWS.

[BY TELEGRAPH TO THE OREGONIAN.]

A Building Falls at Baltimore.

BALTIMORE, June 5.—This afternoon a three-story brick building, under construction on Fremont street, fell in, burying 10 men in the ruins. Jas. Brooks, boss bricklayer, was killed, four others seriously injured and the remainder badly hurt.

Races at St. Louis.

ST. LOUIS, June 5.—In the race for 2 year old fillies, three-quarters of a mile, La Favorite won; time 1:17½. Mile heats, Heneyar won; time 1:42½ and 1:43½. Last race, one mile and one-eighth miles, Jack Hardy won. Bass second; time 1:56.

The Mexican Embroglio.

GALVESTON, June 5.—A News' special says Escobedo and Nuncio are only two miles apart. The former is constantly receiving re-enforcements, and is expected to take Cordas Negras within a few days.

An Indian Scrimmage.

NEW ORLEANS, June 5.—The Galveston News' Eagle Pass special says: News from Mexico states that a party of forty Mexican and Kickapoo Indians attacked a marauding band of Lipans encamped at Sank Rosa Sunday, killing six and wounding five. Thirteen women and children prisoners are now in jail at Sank Rosa.

Expedition Against the Indians.

CHEYENNE, June 5.—General Bradley's command, consisting of five companies, and headquarters of the third cavalry and four companies, left Fort Laramie yesterday morning for the Little Missouri river, where they will establish a summer camp and scout the country north of the Black Hills. The third cavalry is commanded by Col. Carlton. The command is accompanied by a wagon train consisting of seventy wagons and pack train of one hundred and twenty mules. General Bradley will be joined by the Arapahoe scouts while en route. Baptiste, who recently had charge of several Indian soldiers at New Red Cloud agency will act as chief scout, guide and interpreter. Gen. Miniito's command, consisting of eight companies of the fifth cavalry, will reach Fort McKinney to-morrow, and will inaugurate a summer campaign therefrom at once and establish a new post at a point not yet determined.

Arrest of Train Robbers.

The four men who robbed the up train a few days ago, were captured to-day by Sheriff Bolsin in a canyon near where the Medicine Bow empties into the North Platte, and are now at St. Mary's station on the U. P. R. R. Their names are John Thomas, Wm. Henry, D. H. Hill and W. A. Gibson.

Indiana Republican Convention.

INDIANAPOLIS, June 5.—The Republican state convention met to-day. Committee on permanent organization made report as follows: For President, Gen. Ben. Harrison; principal secretary Gen. Laz. Noble, and one vice president and assistant secretary for each congressional district, which was unanimously adopted. The convention then proceeded with the nominations for state officers, as follows: Secretary of state, Isaac S. Moore; auditor of state, Gen. A. O. Miller, of Boone county. After the nomination of candidate for auditor of state the committee on platform and resolutions made the following report:

The Republicans of Indiana, in convention assembled, make the following declaration of principles: The maintenance of the great principles of the Republican party as essential to the peace, prosperity and prosperity of the nation, the right of the people to meet and discuss their grievances to be jealously guarded and maintained, but [illegible] opposition to lawlessness or to any resort to violence as subversive of the public peace, injurious to public morals and destructive of the rights and interests of all classes; equal rights before the law and equal protection under the law without regard to race, creed, condition or nationality.

The following additional nominations were made: For treasurer of state, Major George F. Herriott; for attorney general, Judge D. P. Baldwin; for superintendent of public instruction John T. Morrell. After completion of the nominations the convention adjourned.

The Tax on Beer.

BALTIMORE, June 5.—The eighteenth annual convention of the United States Brewers association assembled to-day. The president of the National Association read his annual address. It treats of the internal revenue tax system on malt liquors in the United States, a system wholly confined to this country, the only country which by means of stamps taxes the finished product.

WASHINGTON CITY.

New Life Saving Station.

WASHINGTON, June 5.—The bill passed by the house to-day directs the secretary of the treasury to establish a life saving station at Bolinas bay, in place of that hitherto authorized for Point Reyes.

Measures in Congress.

WASHINGTON, June 5.—A bill introduced by Senator Patterson to-day proposes to annex to Wyoming territory all that portion of Dakota lying west of longitude 102 degrees and 30 minutes and south of the 45th parallel.

The army appropriation bill, as reported from the senate committee to-day, retains the amendment appropriating $100,000 for the construction of a military post, for protection against the Sioux, at or near a point where Milk river crosses the Canada boundary.

Seriousness of the Indian Troubles.

The subject of Indian troubles is a source of great attention at the war department. The secretary of war and general of the army have been in consultation to-day with reference thereto, and in a brief cabinet council this afternoon McCrary indicated his views and those of military commanders reporting to the secretary of war regarding the seriousness of the situation. Army officers are confident there is trouble ahead. It is the opinion of the war department that the army force is far from sufficient to accomplish all necessary means to prevent outbreaks, but reliance is placed upon the support troops will receive from frontiersmen. Troubles on the Rio Grande just reported do not cause as much apprehension as the western Indian outbreak.

The Movement to Oust Hayes Receives a Setback.

NEW YORK, June 5.—The *World's* Washington special: The judiciary committee of the house to-day took important action on the resolutions of the Maryland legislature and the accompanying bill introduced by Kimmel to invalidate the president's title, and decided adversely on each on the ground substantially that the decision of the electoral commission, made in accordance with law, and ratified by congress, could not be disturbed except through constitutional course of impeachment.

The Potter Committee.

The house committee investigating the alleged frauds in Louisiana and Florida in connection with the last presidential election met to-day. Returns of the electoral college of Louisiana having been received from the secretary of the senate, were submitted for examination. After the returns were read several members of the committee expressed a desire to be in the house to vote on the Wood tariff bill and a recess was taken.

ATLANTIC CABLE.

The German Assassin.

LONDON, June 5.—A Berlin dispatch says Dr. Nobeling has been unconscious since his second examination.

The German Reichstag and the Socialists.

LONDON, June 5.—A Berlin special says the reichstag will probably be summoned again shortly, and if it again refuses to pass an anti-socialist bill it will be dissolved.

Nature of the Emperor's Wounds.

BERLIN, June 5.—Opera square will not be interfered with. The emperor is very cheerful, and his recovery is confidently expected. At the first fire the emperor received seven shot in the right forearm and wrist, and five in the hand and face. His helmet is completely riddled. By the second discharge he received about twenty shot in the left upper arm and shoulder, and six in the neck. The folds of his thick military cloak deadened the effect of this charge.

Dealing with the Socialists.

BERLIN, June 5.—A correspondent says the cabinet council to-day, at which Prince Bismarck presided, decided to await the result of the emperor's wounds before deciding upon measures to be adopted against socialists. The correspondent adds that this decision seems also to dispose of rumors in regard to a regency. It is believed a large number of socialists have recently come to Berlin. Authorities are taking precautions against any outbreak. Richer classes are exceedingly uneasy and fear trouble, especially if government, as anticipated, attempts repressive legislation.

The Emperor's Condition.

BERLIN, June 5.—The emperor's condition this morning is generally satisfactory. The emperor now occupies a room fronting on Unter Der Linden, and learning that measures were to be taken to prevent noise in the neighborhood, requested the passage of carriages on the opposite side of the avenue.

The following bulletin was issued at 9 o'clock to-day:

After good night the emperor feels stronger. The wounds in the head and several wounds in the arm are already healing. The swelling of the right arm is undiminished. There are no symptoms of fever, but the patient has not much appetite. Three arrests have been made of parties believed to be accomplices of Nobeling in Chemnitz, Posen and Brunswick.

LONDON, June 5.—The German ambassador this evening received a dispatch from the crown prince of Germany as follows:

I have just seen the emperor. He has no fever and no pain. His left arm is much swollen. His other wounds are healing.

A German Regency.

BERLIN, May 5.—A decree has been issued proclaiming a regency and nominating the crown prince, Frederick William, as regent. The decree is signed by Emperor William and countersigned by Prince Bismarck.

Feeling of the German People.

BERLIN, June 5.—Excitement throughout Germany does not abate. Every organized body in every town or newspaper in Germany, and in very many other parts of Europe, have given public and strong expression of horror at the deed. The Social Democratic workmen's institution has been visited and searched by the police, and all papers and letters seized.

The Derby Stakes.

LONDON, June 5.—The great event of the English racing season, the race for the Derby stakes, took place at the Epsom summer meeting and was won by Gen. Peel's bay colt Sefton; Count F. Delagrange's black colt Insulaire second; Lord Falmouth's bay colt Clyderic third.

THE EASTERN QUESTION.

Orders Sent to Malta.

MALTA, June 5.—Transports here have been ordered to take on board a coal supply for two weeks, and hold themselves in readiness to start at six hours' notice.

Austro-Hungarian Affairs.

VIENNA, June 5.—The lower house has passed a bill relative to the amount to be contributed by each section of the monarchy towards the expenditure of the so-called common affairs. Hereby the most essential point of the Austro-Hungarian compromise is disposed of.

PACIFIC COAST NEWS.

CALIFORNIA.

Workingmen's State Convention.

SAN FRANCISCO, June 4.—The state convention of the Workingmen's party met this evening, went into session as a congressional district convention and made the following nominations as delegates for the state at large: H. Roger, manufacturer; J. Forbes, pattern maker; P. W. Black, clerk; J. P. Owens, potter; Cornelius Cole, lawyer and ex U. S. senator; Andrew McF. Davis, Miller; (brother of Congressman Davis); John Gingghard, commission merchant, and John Grant, stone cutter.

The executive committee was given power to fill vacancies on the ticket in case any of the nominees decline to serve.

The convention then adjourned and reassembled as a state convention for the election of an executive committee, as follows: Messrs. Barber, Finnerly, Henckler, Quinn, Logan, O'Brien, Delaney, Klaus and Wade. Adjourned.

Assessments.

SAN FRANCISCO, June 5.—Justice and Crown Point have each levied assessments of $1 per share.

University of California.

SAN FRANCISCO, June 5.—Commencement exercises of the University of California was celebrated at Berkeley to-day. Professor John Leconte addressed the graduating class and presented the diplomas. S. Clinton Hastings, founder of the Hastings Law College, through a donation of $100,000 for that purpose, was introduced and made a formal transfer of the college to the university.

The Sacramento Races.

At Sacramento to-day there was a running race, mile heats, for $100, between Glen Dudley, Lena Dunbar and Ecliptic. Dudley was the favorite. Lena won two straight heats, in 1:44½ and 1:46½; Dudley 2d.

Boise City Dispatch.

SAN FRANCISCO, June 5.—Col. Bernard's scouts were informed by a man that the body of a murdered man and articles of a woman's clothing were found near Owyhee early Saturday morning. Col. Bernard's command reached Big Camas Prairie Sunday and entered the Indians' stronghold, the hostiles decamping in haste about there. One hundred Indians still remain in the lava beds. Scouts are watching them while the command is marching towards Munday's ferry to intercept those Indians dislodged Sunday.

Millionaire O'Brien's Mausoleum.

[San Francisco News Letter.]

W. S. O'Brien's family tomb will be 32 feet by 22 feet, on the ground or terrace level, rising to a height of 17 feet. A chapel 12 feet square will form the center of the building, having an altar, with rose window in the western gable. This window, which is opposite to the entrance, is to be filled with emblematic subjects in painted glass. The chapel will rise above the main structure some 24 feet, the total being about 41 feet in height; the vault itself contains twelve catacombs, six on either side of the entrance,—two tiers in height. There is a crypt ten feet in height built on a concrete foundation bed three feet in depth, supporting the catacombs and the floor of the mausoleum proper. The latter, with the external approaches, are to be laid in tesselated pavement. The upper portion of the chapel, terminating with an ancient cross, is pierced with twelve clear story windows, which are filled with stained glass, giving effect to the interior-ribbed and molded groining. The carving of the figures will be of the highest order of art.

It is told of an Advent brother in Westfield, Mass., who recently caught a man stealing meat from his market, that in reply to his plea to be let off and his declaration that, God helping him, he would never steal again, the brother said: "God helping you! Why, you son of a [illegible], if I hadn't caught you stealing you never would have known there was a God."

The Inevitable.

[From the Norristown Pa. Herald.]

When a paper starts out with the express purpose of filling "a long felt want" it lives from one to four months, besides filling the editor with disgust and his pocket-book with patent-medicine orders, and then the end.

CONGRESSIONAL.

Senate.

WASHINGTON, June 5.

The president pro tem presented a suggestion that the late Prof. Henry's gratuitous and valuable service on the lighthouse board be made to benefit his family. Referred.

Thurman submitted a bill creating a sinking fund for the Kansas Pacific R. R. Co. It is identical in its provisions with that recently passed creating a fund for the Union Pacific and Central Pacific companies.

The Texas Pacific bill was taken up.

Johnston opposed it and favored his substitute.

Lamar moved to postpone till December, but withdrew the motion until other members not present now could be heard on it. He will renew the motion to-morrow.

Matthews said: "Mr. President, I rise to a personal explanation and question of privilege. I feel I owe a duty to myself as well as to the senate which, however unpleasant, I cannot in justice to either further postpone or omit. Newspapers published here and elsewhere contain reports of statements made under oath in another place in reference to myself which are calculated to reflect upon my character and standing as a member of this honorable body. These statements appear to be destined to establish, first, that I was in some way connected by participation or encouragement in the perpetration of all the frauds in the presidential election in 1876 in Louisiana, at or about the time of the canvass and return thereof; second, that I was a party or privy to promises of protection and reward to officers charged with the duties in connection with that election and returns thereof made in consideration of frauds and perjuries committed or to be committed by them in reference thereto; third, that having subsequent knowledge of such frauds and of such promises for the purpose of concealing the former by assisting in the execution of the latter, I used my personal and official influence to procure for James E. Anderson official employment in the executive department of the government. To each of these accusations, whether expressed or implied, I reply by emphatic denial. I deny that I was connected in any way, by participation or encouragement, by knowledge, consent or connivance, with any frauds or pretended frauds in the Louisiana election. I deny that I was a party, real or privy, to any promises of protection or reward to any one in consideration of the commission by them of frauds, real or pretended, in that election. I deny that I made efforts to procure official appointment for Anderson with the knowledge or belief on my part that he or any one else had been guilty of any fraud in connection with that election or in fulfillment of any promise of reward that had been made to him on that or any other consideration whatever. On the contrary, I assert upon my honor, which I am prepared to maintain upon oath, that I do not know and never had believed that any such frauds were in fact ever committed, and that I do not know that any promise was ever made to Anderson or to any one else in consideration of fraudulent services in connection with the present election. Anderson, in my little intercourse with him, all of which has taken place since March 4, 1877, never asserted expressly or by any innuendo that Sherman or any one else had promised him office or anything else, either for doing wrong or right; he never asked anything from me or through me by virtue of any such promises. On the contrary, Anderson expressly and passionately appealed to me on the ground that he had rendered honest, honorable, lawful and efficient service to the Republican cause in Louisiana at a sacrifice of time, and money and peril to his life and that he had for that cause incurred terrorism and hostility from political opponents. The only wrong I understood or believed him guilty of was in having previously untruly pretended he had been guilty of things he now again pretends to confess. That wrong I had no confirmation of until after his appeal to me for my aid had been responded to by an act of my good will in his behalf. His disclosure of it with the delivery of false documents which constituted it, I supposed was intended by him and was regarded by me as the atonement for it, and upon that footing only, I received them. It never for a moment occurred to me that the possession of them by me could be misconstrued into an offense, and believing that the only use which their publication could serve would be to propagate mischievous and scandalous falsehoods. The only error, if there is one, of which I am conscious, is in having recommended to office a person who had meditated and prepared a wrong, but had as it appeared to me withdrawn from performing it. But as there seems to be an attempt to magnify it into what is alleged to have constituted conspiracy against important rights, and as coloring is thus sought to be given to my conduct and affects my standing and character in this honorable body, it is a matter of privilege that the senate should inquire into the subject as affecting it, not less than myself. I have the honor accordingly to offer the following resolution:"

Resolved, That a select committee of seven senators be appointed to inquire into, and consider all things touching matters stated and referred to the senator from Ohio (Matthews) and events connected therewith, and particularly what connection, if any, that senator had with any real or pretended frauds or other wrongs committed in the conduct and returns of the election in the state of Louisiana in 1876, and with any promise of promotion or reward, if any was made by any one to James E. Anderson or others in consideration of or connection with any official conduct by said Anderson or others in relation to said election or returns thereof, and into all the circumstances of any recommendation by said senator of said Anderson for appointment to office, and that said committee has power to send for persons and papers, to employ a clerk and stenographer and have leave to sit during recess. Agreed to unanimously.

House.

A session was ordered for Saturday night for debate. Consideration of the bill amending internal revenue laws was resumed.

The house by a vote of 134 to 120 struck out the enacting clause of transfer bill, thus defeating it.

WASHINGTON TERRITORY.

The population of Thurston county has been increased 200 during the past year by agricultural settlers.

The Olympia *Transcript* maintains that the members of the constitutional convention will consist of nine Republicans and six Democrats.

On Tuesday next the fifteen delegates chosen by the people of Washington territory to frame a state constitution will meet at Walla Walla.

The *Dakota* is keeping up her reputation as a fast steamer. Her last run from San Francisco to Victoria was made in sixty-four hours and ten minutes.

The ties for the railroad to Tenino—20,000 in number—have been delivered to the company and are now being put to the use for which they were intended.

Victoria has been paying no subsidy for the mail carried to and from the Sound. Capt. Starr, who has been performing the service gratuitously, will shortly discontinue it.

OREGON.

Wm. McCoy of Wilton, Umatilla county, lost three children with diphtheria in one week. Others in the neighborhood have the disease.

The greenback vote in Linn foots up about 375, all told. The "movement" appears to have "taken in" more Republicans than Democrats.

Suggestive note from Lane county: "Had the full representative ticket in this county come out squarely against Mitchell, as Stratton and Gilbert did, all would have been elected."

A Husband Market.

A strong-minded woman married a man not noted for activity of body or energy of character, and before the honeymoon was over, upon awakening one morning, he found his spouse in tears. "My love," said he, "what is the matter?" "Oh, I've had such a dreadful dream!" "Why, what was it?" "I thought I was going out Fourth avenue when I saw a sign, 'Husbands for Sale.' So many women were rushing in that I followed, and just then they were selling a splendid specimen for $1,500." "But did they all bring as much as that?" "Oh, no! They went at $1,000, $500, and so on down." "Well, did you see any that looked like me?" "Yes, indeed. But they were tied up in bunches like asparagus and sold for ten cents a bunch." Tableau.

Size and Mass of Mars.

[From the New York Tribune.]

Before the discovery of the satellites of Mars, astronomers were inclined to reduce their estimates of the mass of that planet. The calculations made from the speed and distance of the little moons render it certain that Mars is smaller than had been previously reckoned, though the difference from some of the more recent estimates is not very great. In round numbers the mass of Mars is less than a tenth that of the earth. The new figures will probably be long in reaching the school astronomies, where the proportion is usually put at a seventh.

ELECTION RETURNS.

[BY TELEGRAPH TO THE OREGONIAN.]

Douglas.

MYRTLE CREEK PRECINCT.

Hines 33, Whiteaker 121, Beekman 34, Thayer 121, Earhart 33, Reames 122, Hirsch 31, Brown 119, Carter 34, Noltner 120, Powell 31, Stites 121, Knox 29, Hazard 121. County ticket, Democrats got about 80 majority.

Jackson.

JACKSONVILLE, June 5.—From returns received indications are that Thayer's majority in this county will be about 150, Reames 300 and the rest of the state ticket about 230. Most of the People's ticket in this county is elected, but the legislative ticket is very close, and probabilities are that the Democrats will elect a senator and one representative, and the Independents one representative.

The entire citizens' county and legislative ticket is elected in Jackson county, with the exception of Fisher for treasurer.

Josephine.

JACKSONVILLE, June 5.—Returns from Josephine county give the Democratic state ticket an average majority of 65. A Democratic representative and county ticket is elected.

Marion.

Hubbard Precinct. Whiteaker 6, Hines 61, Thayer 7, Beekman 60, Reames 6, Earhart 62, Brown 4, Hirsch 59, Noltner 5, Carter 63, Stites 6, Powell 60, Whitney 5, Hurley 54. State senator—Parish 5, Smith 5, Bonham 4, Waldo 57, Lord 47, Grim 53. Representatives—Mathieu 10, John Savage 5, H. H. Savage 1, Young 4, McClane 4, Weatherford 5, Schellberg 58, Reed 58, Murphy 50, Smith 58, Scott 55, Ramsby 54. County Judge—Shaw 10, Peebles 42. Clerk—Grabbe 5, Edes 55. Treasurer—Obeheim 5, Calvert 55. Sheriff—Byrne 5, Baker 56. Assessor—Simpson 5, Porter 59. School superintendent—Steeves 4, Gregg 57. Surveyor—Hammer 5, Gesner 57. Coroner—Savage 4, Brown 58. Commissioners—Thornbury 6, Griffith 4, Piette 53, Condit 53.

Wasco.

DALLES, June 4.—Whole number of votes cast in this precinct, 475; state Democratic ticket has about 50 majority.

DALLES, June 5.—The Dalles precinct gives Whiteaker 53 majority over Hines, and all the rest of the state ticket is ahead of Whiteaker.

Moshier's precinct gives Whiteaker 10 over Hines and 3 on the state ticket.

Celilo gives an average of 10 majority Democratic.

Fifteen mile precinct gives 3 Republican majority.

The Democratic state ticket will carry Wasco by 155 at least.

Columbia.

Semi-official reports from 8 precincts and estimated majority in one gives the following majorities: Whiteaker 31, Thayer 37, Reames 28, Brown 20, Noltner 31, Stites 30, Garin 27, state senator Dodd (Dem.) 20, Cole (Rep.) representative 1, Blanchard (Rep.) county judge 45; Conyers (Rep.) sheriff 1, Dert (Dem.) clerk 47, Emerson (Dem.) assessor 58, Merrill (Dem.) treasurer 30, Weed (Rep.) school superintendent 8, Hudson (Dem.) surveyor 1, Carr (Dem.) coroner 14. Two precincts to hear from will probably add 5 or 6 to Republican majorities.

PERSONAL AND GENERAL.

Victoria C. Woodhull is bringing libel suits against the London papers.

James Fisk, Sr., of Brattleboro, Vt., father of Stokes' victim, is still engaged in the lightning rod business.

Mrs. Fletcher Webster is about to build a new house on the site of the recently burned Webster mansion at Marshfield.

Mrs. Helmbold lives in Philadelphia in fine style on the income of $200,000, settled on her by her husband before his failure.

It is said of the late Catharine Beecher, by the Hartford *Courant*, that "she was a whole social science association in permanent session."

Murat Halstead, of the Cincinnati *Commercial*, who has just returned from Paris, says that the exhibit made at the exposition by the United States is disgraceful and disgusting.

Mr Larkin G. Mead hopes to place a statue of General Stark, twelve feet high, on the top of a monument one hundred feet high, to be erected at Bennington, Vt. The whole work is to cost $75,000.

Mrs. Freehman, of Gasconade county, Missouri, while planting corn, placed a basket containing $70 in greenbacks by the side of the field. A calf retired the greenbacks by swallowing them. It was immediately butchered, and the fragments recovered from the stomach were duly received at the treasury. Being found all right, a check was returned for the full amount.

Packard's Confirmation.

[Washington Special, May 22.]

Ex-Gov. Packard, of Louisiana, was confirmed by the senate to-day, as consul to Liverpool by a vote of 32 to 27. This meagre majority was only obtained upon the urgent personal solicitation of the nominee's senatorial friends. The opposition chiefly emanated from the friends of General Torbert, the present consul general at Paris, who antagonized Packard in order to retain ex-Governor Fairchild, of Wisconsin, in his position as consul at Liverpool, and thus prevent the vacancy. Upon an intimation, however, that a serious charge of official irregularities could be established against Torbert, some of the latter's supporters partly abandoned the contest. The vote, it is said, was of a non-partisan character, many Republicans opposing the nomination, and just as many Democrats voting in its favor. The confirmation of Packard was followed by the confirmation of Fairchild.

What "Mexicanization" Is.

The New York *Sun* wants to know what is meant by the Republican charge that the Potter business is an effort to Mexicanize the government. It asks: "Is the exploration and defeat of frauds peculiar to Mexico?" The Cincinnati *Commercial* replies:

The Democratic party in Mexico does not, we believe, do much in the investigation of "fraud," but they always dispute the presidential election when it is against them, and one pretext for that habit is about as worthless as another.

Dying Out in Indiana.

[From the New York Times.]

While the National party is becoming a political power in the east, the enthusiasm of its supporters seems to be dying out in its former strongholds. The Indiana convention ought to have been composed of 1,075 delegates; less than a third of that number responded to the call. The attendance came chiefly from Democratic counties, but the candidates were drawn in equal proportions from former members of each of the two old parties.

Where the Sinner Wins.

[Louisiana Christian Advocate.]

A correspondent wants to know: "Can a Christian go to the circus?" Why, yes, he can go to the circus easily enough; but it will cost him a quarter when he gets there to get in. You see, a Christian is always too proud to carry water for the elephant and that is where the sinner has the advantage over him in the matter of free passes.

A Rival for Mr. Tilden.

[From the New York Tribune.]

In order that Mr. Tilden may not have the whole field to himself a Delaware editor rushes to the front with the name of Senator Bayard as the Democratic candidate in 1880. There are two obstacles to Mr. Bayard, both of which are fatal. He comes from a small Southern State, and he is too good a man for his party.

A. H. Stephens is put down "Hayes Dem., Ga." in the *Sun's* congressional reports now.

CITY.

POWER OF ATTORNEY.—Yesterday there was filed for record in the county clerk's office of Multnomah a power of attorney from the Oregon and Washington Mortgage Savings Bank to William Reid which [illegible] constitutes and appoints him the [illegible] managing director of said corporation for the state of Oregon and territory of Washington with full power and authority [illegible] director to, for [illegible] of and in the name place and stead of said Mortgage Savings Bank to exercise any and all powers requisite, necessary or [illegible] (William Reid's) full and [illegible] performance of all the duties [illegible] ments of managing director [illegible] of said corporation also [illegible] him to release and satisfy all mortgages [illegible] release, or [illegible] for and on behalf of said Mortgage Savings Bank. The power of attorney is dated [illegible] at Dundee Scotland and acknowledged before the American consul there [illegible] the seal of the corporation and is signed on its behalf by Alexander Guthrie and Alex Thomson, directors and Thomas [illegible] the secretary

SUNDAY SCHOOL CONVENTION.—The committee of gentlemen representing the leading churches of the city propose to Sabbath school workers throughout Oregon, Washington and Idaho to hold a convention in Portland, October 8th and 9th. The basis of representation is to be one delegate from each Sunday school and one additional for every 25 in average attendance including officers, teachers and scholars. A programme of exercises will be published in due time. Circulars will be issued to secure as complete statistics of the work accomplished by this agency as possible. Superintendents and secretaries of Sunday schools are earnestly requested to secure and forward to Mr Wadhams, the statistics of their schools up to September 1st, 1878. It is hoped that Mr J K. Gill, during his visit east, will be able to secure the services of a competent director and chorister. Other papers please copy.

DIED SUDDENLY.—From the *Telephone* it is learned that George Mack a young man well known in the vicinity of Mount Tabor died suddenly. He had been slowly sinking with consumption for some time but no one had any idea of his death coming so soon. Between 11 and 12 o'clock yesterday morning, however, he was seized with a violent fit of coughing, and before he was checked fell back and expired almost instantly while the blood issued profusely from his nose and mouth. An examination showed that the severe strain caused by the coughing had bursted a bloodvessel. The unfortunate young man was about 23 years of age and had many friends who sincerely regret his untimely decease. He will be buried at 10 o'clock this morning.

A HEAVY BLOW.—An altercation took place Tuesday on board the steamer *Wide West* while the boat was on the way to this city from the Cascades, between a waiter named David Fuller and a pantryman. During the row Fuller struck the pantryman a heavy blow on the temple with a pitcher, which felled him. He was knocked senseless but was soon restored to consciousness. One of the small arteries about the temple was severed by the blow from which the blood flowed profusely. On reaching this city the injured man was very faint from the loss of blood and was conveyed to the hospital, where he is now. Fuller was arrested on a charge of assault with a dangerous weapon and will have an examination in police court to-day.

TEMPERANCE LECTURER.—Those who are interested in the great work of temperance will be glad to learn that Mrs E G White of Oakland, California, will be in Oregon and in attendance at the campmeeting of the Seventh Day Adventists, three miles north of Salem where she will occupy part of the time speaking on temperance. As she is spoken of as one of the best temperance lecturers on this coast, those who attend are promised a rich treat. All are cordially invited to be present. Elder J. N. Loughborough of the California conference, will also be present and take part in the meeting. The meeting will commence June 27th and close July 2d. The cars will stop at the ground during the meeting.

JUSTICES AND CONSTABLES.—The following were elected in this county last Monday: Couch precinct, H Mullen justice. North Portland, A. Hogan justice, John Donovan constable; Madison, C Crich justice, M B Wallace constable, Morrison, R I Dybee [illegible], Dan Sprague constable. Western, I J. Dyer justice. South Portland, O S [illegible] justice, Wm H Bennett constable. Sauvie's Island, Wm Forrest justice. Willamette, J. T. Bowles justice, — Carter constable. Powell's valley, J W Roork justice, [illegible] constable.

REPUBLICAN PRIMARIES.—Next Saturday the Republicans of the city will hold primary meetings in their respective wards between the hours of 5 and 8 P M to elect delegates to hold a Republican city convention to be held at the court house on Thursday the 13th day of June, 1878 at 2 o'clock P M to nominate candidates for the several city offices to be filled at the ensuing election.

TO THE PUBLIC.—The wharf and warehouse at the "Bone Yard" are now complete and ready for business. The Cascade boat will [illegible] passengers and freight at the new wharf on arrival this evening, and hereafter that will be the regular landing on arrival from the Cascades. Passengers for Upper Columbia as well as for Astoria will take boat at the old wharf foot of Ash street.

SOCIABLE.—Next Friday evening, the ladies of the First Presbyterian church will give one of their social entertainments in the vestry of the church. Miss Jennie Rosenheim and others have kindly consented to favor the audience with both vocal and instrumental music. There will be an abundance of ice cream and strawberries.

RELIGIOUS NOTICES FOR NEXT SABBATH.—Presbyterian church, Dr A L Lindsley, pastor. Rev. R S. Stubbs will occupy the pulpit morning and evening. In the afternoon, the work, the purposes and the needs of the Portland Seamen's Friend Society will be presented, and the first annual collection will be taken up.

[illegible] SENT.—Gen Howard has received a dispatch from General Sheridan to the effect that he (Sheridan) had sent all available troops from Salt Lake and posts along the line of railroad to Fort Hall. Gen Sheridan said that he had sent all that could be spared and was sorry that there were so few.

CORNER STONE.—This afternoon at 4 o'clock the ceremony of laying the corner stone of the new building for the Bishop Scott Grammar School will take place. Addresses will be made by Bishop Morris, Rev Geo Plummer and probably Gen O O Howard.

FOURTH OF JULY EXCURSION.—Plans are being matured for a Fourth of July picnic under the auspices of the Portland Seamen's Friend Society, as announced in THE ORE[illegible] over six weeks since. Particulars soon.

American Telephone and District Telegraph Company,

OF PORTLAND.

Central Office with Western Union Telegraph Company, No. 3 First St.

THIS COMPANY COMBINES THE PRIVILEGES and facilities of the American Speaking Telephone Co and the American District Telegraph System is organized and managed exclusively by Resident Telegraphers and Electricians and is now ready for business.

In the Telephone Department,

We construct independent business lines fully equipped (with Telephones and Signal Bells) and maintain them in working order.

We also have the Central Office System, now working so successfully [illegible] for use by merchants and others, the principle of which will be explained to applicants. This system guarantees perfect secresy to the parties using the lines as it is managed by professional telegraphers whose obligations and the training of years render them perfectly safe to be trusted in this important matter.

The District Telegraph System

We furnish, when requested, Signal Boxes enabling the subscriber at any time DAY or NIGHT to summon a policeman, fireman, messenger, physician, hack, express man, or friend, or to send a telegram to any part of the world. By this system every subscriber keeps a private messenger always on hand, and only pays him when he requires his services. Special signals can be arranged to perform any reasonable service in the least possible time.

Ladies Alone in the House

Will experience a feeling of perfect security with one of our Signal Boxes, knowing that protection from robbery, assault, annoyance and fire is always at their command day or night.

Celebrated English Remedy,

S R ASTLEY COOPER'S

VITAL RESTORATIVE

NO MEDICINE ON THE PACIFIC COAST HAS attained the popularity the VITAL RESTORATIVE has in so short a time. It has made the most astonishing cures of the above named complaints in San Francisco and surrounding country, and THAT TOO after every other known remedy had been tried and FAILED. It is no *quack nostrum* and WILL do just what we claim for it.

Thousands owe their RESTORED MANHOOD—the return of their LOST VIGOR, to the use of this wonderful medicine, together with a course of treatment by DR. MINTIE & CO of San Francisco.

Hence we would say to the afflicted come and see us. It costs nothing to consult, and if you choose to avail yourself of it you can get the same treatment here that has been so successful and is now doing such wonders in San Francisco.

CONSULTATION FREE.

Thorough examination and advice, including analysis of urine, $5.

PRICE.—The price of the Vital Restorative is $3 00 per bottle, or four times the quantity for $10, sent to any address upon RECEIPT OF PRICE, securely packed from observation.

KILL THE FISH YOU CATCH

Charles Hallock the accomplished editor of *Forest and Stream* has a very humane and thoughtful article on this subject. Not only because it is humane but because it improves the quality and flavor of the fish he urges upon all anglers the duty of killing all their fish as they catch them. Many anglers do this habitually but all do not. We [illegible] an extract from Mr Hallock's article

As boys we were taught that fish had no feeling and we believed that what might be cruelty to a dog was harmless pastime as respects fish. But autopsy and science have proved our belief an error and we discover that contortions and gaspings are evidences of pain and distress though we assume that their nervous system is comparatively of a low order. That fishes have intelligence and can be taught that they have discrimination and discernment that they possess the five senses each to a great or small degree that they are to a limited extent sentient and reasoning creatures—all these have become evident. If it is ordained to us that we are to derive sport from the prolonged apprehensions of the fish while hooked (not from his bodily pain, for the mere prick of the hook gives little and often none at all) then let us handle him mercifully after his torment begins and it begins after he is withdrawn from his native element. If he is small take him around the body and considerately rap the top of his head upon a stone or the thwart of the boat; if large rap his head with a heavy stick or, what is more genteel and to the point, pierce the cervical column at the base of the brain with a sharp knife. This produces paralysis and almost immediate death. It leaves the corpse in a shapely and seemly condition. Admiration of its unbattered beauty is added to the pleasure of capture and your fish remains a proper subject for the market or the studio. Brother anglers learn to be humane.

Determined beforehand we gravely pretend
To ask the opinion and thoughts of a friend
Should his differ from ours on any pretense
We pity his want of both judgment and sense
But if he falls into and flatters our plan
Why, really we think him a sensible man

DR. PAUL M. BRENAN.

His Wonderful Success
IN THE TREATMENT OF ALL
Chronic and Difficult Diseases.

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS

public and private lectures the true principles of health and life to both male and female. He has also warned them against habits that would be likely to produce disease in plain and comprehensive language. But where he has found them crushed and broken down by disease mentally and physically he has restored them to health and happiness for it is well understood that without health there can be no happiness.

DR. BRENAN

has made a specialty in the treatment of the following diseases Catarrh Bronchitis and all diseases of the throat and chest by an entirely new system only known to himself. Diseases of the Kidneys and Urinary Organs including Spermatorrhea Seminal Weakness or premature loss of Manhood. In the treatment of these diseases he has made a world wide reputation by his astonishing success not only on this Coast but throughout the whole United States. Diseases of the stomach, bowels, liver and kidneys as well as all diseases of the blood and skin he has become master of and never fails to give relief at once and permanently cures the case if he is applied to in time

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and is perfectly familiar with all female complaints and understands their delicate and refined organization as well as the proper remedies which should be used to allay their suffering and restore them to perfect health

THE DOCTOR HAS THIS ADVANTAGE

over most physicians—he can tell the patients' disease the moment he comes in contact with them without any aid from the individual. This accounts in part for his great professional success

All surgical operations can be performed by his skillful hand, and the patient need not fear the result.

DR. BRENAN

will send to those living at a distance and who can not well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally and will forward the proper medicines, or instruments to any part of the country with full instructions and advice. Each letter requiring advice or list of questions must contain two postage stamps

Everything strictly confidential and honorable

THE DOCTOR

has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia as more than one of the Medical men of the Medical Faculty in this State can testify

CAUTION.

Persons coming to Portland requiring medical treatment of the proper kind who desire to consult with me will please beware of persons who may try to coax them away to other so called Doctors through pretended friendship for the patients. Look out for them they are knaves prompted by selfish motives and what they can make. Be sure and ask for DR. PAUL M BRENAN the *Medical Lecturer* and read his sign on his door

That the president be requested to furnish the committee all the original letters above which he has received, if any, or certified copies of any such letters written by him as he may prefer, in order to intelligent cross examination of the subject matter thereof.

The resolution was adopted.

Gorham, secretary of the senate, was questioned relative to papers of the committee, and he stated the only papers relating to the electoral college of 1876 in his possession; nothing of any record of the returning board until yesterday, informed by a correspondent such document was in keeping of the senate, and would give the committee desired regarding it.

Anderson was recalled and further examined by Mr. Reed.

Anderson was shown a document purporting to be the original agreement signed by him and Weber, which he yesterday said was in possession of Stanley Matthews. He declared the document not a very fair counterfeit.

A Cold Blooded Murder.

BUCHAREST, June 6.—The execution of Topola Riars was a cold blooded murder, intended to terrorize the Servian people, and succeeded. The rioters were not revolutionists. They only made some noisy public demonstrations against the cabinet's policy in going to war without summoning the skuptschina.

CONGRESSIONAL.

Senate.

WASHINGTON, June 6.

During the morning hour Voorhees spoke in favor of the early consideration of the bill to repeal the specie payment act, and said the senate might as well look this matter in the face. If it was not going to repeal the act let it say so by its vote. No greater question had engaged the American congress. He would take every opportunity, from now to the close of the session, to insist that the matter should be disposed of. The senate had time to pass all sorts of bills and to bridge rivulets, but no time to meet a question which involved more peril and distress than had ever been produced by war and pestilence. He thought the bill could be disposed of in 60 minutes.

Allison moved to strike out of the house bill the clause intending to permanently fix the number of enlisted men in the army; agreed to.

The committee amendment increasing the army to 25,000, agreed—31 to 17. All the nays were Democrats except Jones, of Florida.

Blaine moved to amend by limiting the signal service enlistments to 400 instead of 300; agreed to.

The committee's amendments increasing the appropriations for the quartermaster's department were agreed to, and also the amendments increasing the appropriation for the purchase of cavalry horses from $50,000 to $200,000, reducing the amount for hospitals from $75,000 to $25,000, and appropriating $150,000 for a military post near the Black Hills.

Spencer reported from the committee on military affairs an amendment appropriating $100,000 to build a military post in the vicinity of Milk river, Northern Montana; agreed to.

All the sections of the house bill regarding the reorganization of the army were struck out.

Burnside submitted an amendment from the military committee, providing a committee of two members of the senate military committee, three members of the house military committee and three regular army officers to consider the whole question of the reorganization of the army, and to report to the next congress; agreed to without discussion.

The section of the house bill providing for a credit of longevity pay to officers or men who have served full time, was retained on motion.

Bayard moved as a substitute for the transfer of the Indian bureau to the war department a reference of the subject to the committee on reorganization of the army, just provided for.

Blaine moved to amend by authorizing the committee to report a bill to carry into effect its suggestions; and also moved to amend by making the committee consist of two senators, three representatives and three officers, and said he would submit the amendment authorizing the secretary of the interior to appoint two civilian members.

Bayard accused Blaine of trying to defeat the bill and favored an executive session for a conference. He opposed the amendment.

Allison submitted an amendment directing said commission to report upon the question when the Indian tribes would become self sustaining, and at some length favored the peace policy towards the Indians. Adjourned.

LANDS NEAR SHOALWATER BAY.

BRUCEPORT, PACIFIC CO., W. T.,
May 30, 1878.

TO THE EDITOR OF THE OREGONIAN:

Permit me through the columns of your widely circulated paper to answer many inquiries received about lands in the North River valley. From explorations just made I am satisfied there is government land, mostly alder and vine maple bottoms, all easily cleared sufficient for two hundred families, and the valley I think has not been more than half explored. The soil is a rich sandy loam, and will I am satisfied, produce all kinds of cereals equal to any lands in Oregon or Washington territory. Having described the location, chances for transportation, &c., in a letter published in the OREGONIAN of May 4th (for which I now tender thanks) it would be unnecessary to repeat the same. I will only add that in constructing a wagon road from the head of tidewater on the North river to the valley above, there would be but very little grading necessary, mostly at, and near the falls and would not, I think, from careful observation, exceed one quarter of a mile. In answer to inquiries about the country being healthy, I will say that the people are very seldom sick, and that fever and ague are entirely unknown as far as I know or can learn. Being situated on the sea coast, swept by the pure sea breeze, there being no overflow or swamp lands, with the purest mountain streams, it cannot be otherwise than healthy. In regard to men being able to make a living here I would say it depends entirely upon what kind of men they are. Men of industry and perseverance have always had plenty so far, and I do not know of any person ever coming on the county for support. I notice in an article written by W. H. Dodge and published in THE OREGONIAN of May 11th, the following sentence: "Any young man by 'roughing' it can take up land there and hold on to it till valuable, and make more money by doing so than in any other way." Now it happens that we don't want any such settlers or more properly speaking, "land grabbers." We consider them a detriment and curse to any country. What we do want is men of energy and perseverance, to not only locate but improve homes for themselves and families thus building up a thriving, industrious settlement.

Like all new countries, a market would have to be partly made, but as Shoalwater Bay is acknowledged to be one of the best harbors between the Golden Gate and Puget Sound, open at all times to the commerce of the world, it must become in the near future one of the important shipping points of our northwest coast. All we want is emigration. Let the fertile valley of the North river be cleared and cultivated, let its splendid water power be utilized, its fine timber shipped to the different markets of the world, and Shoalwater Bay will take its place among the best commercial harbors on the Pacific coast.

I believe the above will answer about all the questions I have been asked. Should any person wish for further information, I will be pleased to give it by letter or otherwise if possible. Having built a small boat for the upper river I will be ready at all times to go with or furnish boats to all parties wishing to explore the river. I can't charge provided my descriptions do not agree with the country [illegible] [illegible] [illegible] for any demand [illegible]

POTTER'S LETTER ON HIS RESOLUTION

HE TALKS ABOUT ITS PROBABLE RESULTS, BUT SAYS THERE WILL BE NO REVOLUTION OR DISTURBANCE—A RATHER ENIGMATIC DOCUMENT.

Clarkson N. Potter, in a long letter to a New York friend, explains the effect of his resolution. He says, among other things: You suggest that to raise a question about the last presidential election will bring on a disturbance or revolution. Not at all. About that, possess yourself in peace. There is not the slightest chance of revolution or disturbance. When the whole country was at fever heat on the subject of the election, a way was found to establish a tribunal to pass upon the election, and every one submitted to that determination. The president's title rests upon that. If now it should appear that there was fraud which palpably affected the electoral vote, and which the commission did not notice, and if a legal remedy exists for correcting the error, you cannot believe that its proceeding under the law could lead to a disturbance. If there be no such legal remedy existing and congress should hereafter, by approval of the president or by a two-thirds vote of both houses without that approval, provide one, why should the legal determination thereafter had any more produce disturbance than the decision of the electoral commission did? It is exactly because this is not Mexico and because the people prefer determining these questions by legal methods; and if legal methods have not been provided, to invent legal methods of determining them, and to submit to the determination thus arrived at, that this country cannot be Mexicanized. Having accepted the electoral commission, of course we were bound to submit to its results. But we ought at least be allowed to show, if such was the fact, that the returns upon which the commission passed were procured by fraud. I admit that the presidency is not worth a civil war. The generation who charged up the heights of Fredericksburg and defended the works at Petersburg will not go lightly into another civil struggle. We must get years further on before that will happen. I admit the success of the Republican leaders. Having lain down when the law was on our side, and when we ought to have stood up, it is not for us now to stand up as long as the law remains against us. But you will ask whether, if there be no danger to public order from legal proceedings, there may not be from action of congress? No. No more than from the action of the courts. Congress represents the people of the country, but does not march before them. It expresses, but does not anticipate their will. Should the fraud connected with the electoral count appear so gross and palpable that you and all honorable men should unite in denouncing it, congress might then take action. But if so, what congress might do—being the result of action of men of all parties of the great body of the people, not of party—would be effected quietly, certainly, and without violence or disturbance. In saying this, I do not mean that I expect the investigation to be followed by either legal or congressional action. What, if anything, should be done, because of the inquiry, must depend on the results of that inquiry. But I do mean that whatever action, if any, should follow the investigation, can neither disturb the order nor the prosperity of the country. This cry of "wolf," when there is no wolf—this effort to make it appear that there is danger to peace or order from the investigation, is a Republican pretense, like the bloody shirt just fashion of the carpet bag government; like the public danger excuse advanced for the enforcement of Durrell's infamous order and protection of the returning board by bayonets; like the cry set up after the election, to prevent any agitation and to secure submission. What, then, you ask, is the purpose of the investigation? I answer to ascertain the facts, so that if frauds be established a repetition of such frauds may be prevented; and if not, to clear up the general belief throughout the country there were such frauds. The feeling amongst many Republicans after the election was, that while we had been cheated in the returns, we had bulldozed negroes as badly, so that the accounts of wrong were about equal. This belief in bulldozing of the negro was based upon the fact that in certain districts in the south which usually gave Republican majorities, there was not returned that year a single Republican vote.

Now, the people of the north have never understood that this condition of things was fraudulently prepared by Republicans. They ought to understand that, and beyond that they ought to understand that there never was anything so disgraceful as to [illegible] returning board to throw out the votes of [illegible] and keep in the votes of [illegible] without cause; to invent a pretext for such wrongs; to accept manufactured [illegible] for their action; to permit [illegible] returns to be forged, frauds to be perfected, and [illegible] every means by which the will of the people may be frustrated and the [illegible] [illegible]

[illegible] trade is carried on by [illegible] Pittsburg and Fort Benton.

Boys and Firearms.

SAN FRANCISCO, June 6.—Edward Topp, aged 12, was accidentally shot in the abdomen yesterday afternoon by a friend, Calvin Langdon, as the two boys were playing with a pistol. The wound is considered fatal.

Suicide.

Mrs. Ellen Wegermuller, a native of New York, aged 42 years, committed suicide this morning about seven o'clock by jumping into the bay at the foot of Mason street. She left her residence, 1012 Pacific street, this morning in a very excited state of mind and ran down Mason street towards the water, followed by a man who observed her peculiar actions. When she reached the beach she began picking up the shells. The man watched her for some time and then went away leaving her in company with some women and children. She was seen to jump into the bay, and before help could be procured she was drowned. The body was grappled and brought to the surface.

Sacramento Races.

SACRAMENTO, June 6.—The race to-day was a trot for $500 by the 2:40 class, entries, Graves, Lady Low, Hiram, Elko and Flora F. Graves won in three straight heats in 2:41½, 2:40, and 2:37. An interesting question arose over who had won the pools and second money, Lady Low, Elko and Flora having each come in respectively 2d, 3d and 5th, while Graves had been kept out of the pools entirely. The judges ruled that the three took second money, and that the pools were off. This satisfied but few and the matter will probably be appealed.

Drowned.

SACRAMENTO, June 6.—At 8 o'clock to-night Michael Dunn drove his team into a pond below R street to water his horses and leave the wagon to swell, but they got into a hole and sank, and Mr. Dunn and one of his horses were drowned.

Last night as Edward Barrell, aged 21, was crossing the river in a boat, he was caught in a whirlpool. The boat was upset and he was drowned.

Suppressing Voltaire.

[From the New York Herald.]

Many admirers of Voltaire in France have determined to celebrate a Voltairean centenary by the appropriate method of a wide diffusion of Voltaire's thoughts. They have made a selection of passages from his writings, and propose a gratuitous distribution of a volume of these throughout France, and they put a chance to take part in the centenary at the easy rate of a contribution to the fund for this purpose. War is made on this project by the Catholic prelates, and one of them has asked the government to interfere. Indians in Grant county are suffering from [illegible].

Clatsop county threw over a thousand votes last Monday, a large gain over any previous election.

Last Saturday Miss Kate Fields, of Brownsville, was thrown out of a hack and so badly injured that her recovery is deemed impossible.

Lane county, which threw 1,928 votes for president in 1876, now throws 2,014 for governor. Clackamas shows a gain of one hundred votes since 1876.

A QUERY.

TO THE EDITOR OF THE OREGONIAN:

A recent writer, see Golden Rule for May [illegible] 1878, Rev. W. H. H. Murray's paper, Chef Inches, in an article on "Lord Beaconsfield's Imperial Ideas," uses the word [illegible]. It is found in this sentence: "The [illegible] and high handed proceedings [illegible] government during the last [illegible] months [illegible] [illegible] the parliament [illegible]" [illegible]

Corr. [illegible] of a London Paper.

If any one would like to know what [illegible] Osman Pasha, they might [illegible] from an anecdote that my friend told me. A very steep rock was to be stormed. It rose [illegible] height of two hundred and fifty feet, and was crowned with Russian batteries.

A Turkish colonel, desirous to set an example to his men, scrambled up first by the help of occasional projections in the rock, and roots and weeds. When he reached the top, he found himself entirely alone. The Russian soldiers looked at him in amazement. Their guns were pointed at his breast, when their general gave the order not to fire, hastened up to the Turkish colonel, and called out to him, "Colonel, begone at once; you see you are alone!" The brave man said nothing. He stood still a moment, gazing at his enemies, then turned and went back safely as he came. All the Russian soldiers began to clap their hands and cheer him.

The New York *Herald* says the prospect is that full preparations for resumption will be completed in July, and that the commercial community will be so easy on the subject during the remaining six months of the year, that when the fixed date arrives business men will be unconscious of any change.

FRIDAY MORNING JUNE 7 1878

OUR INDIAN RESERVATIONS

Some days ago our telegraphic dispatches reported a bill which had been reported to the house of representatives by the chairman of the committee on Indian affairs providing for the consolidation of all the Indians in Oregon and Washington territory upon five reservations. It is proposed to remove the Indians at Warm Springs and Umatilla to the Yakima reservation. The only other reservations to be retained in Washington territory are those at Colville Puyallup and Neah Bay while all the Indians in Western Oregon are to be placed on Grand Ronde reservation.

If any arrangement could be made with the Indians that would at all satisfy them the people of Oregon and Washington no doubt would be glad to see these propositions carried into effect. But it is very questionable whether it could be done with the consent of the Indians themselves. In most cases they will be very reluctant to leave their present situations. From the point of view from which the whites look at the matter it is very easy to present arguments as to the expediency of the removal and consolidation of these bands of Indians. On the Umatilla reservation probably not more than 700 Indians occupy a territory extensive enough to form a county that would support 20,000 inhabitants. Little use is made of the land by its present occupants, except for pasturage. The reservation is surrounded by rapidly growing white communities. It is altogether likely that the Indians would be in quite as good condition on the Yakima reservation as they are in their present situation. But it is understood that they are not willing to go. If the proposition presented in this bill is to be carried out it probably will be necessary to use force, not only upon these Indians but also upon others who are to be removed. There are stipulations with them that they shall be permitted to occupy and remain on these reservations. The proposition to remove them touches the question which has been presented continually, ever since the whites came to America. Lands not used are wanted by a people who will use them. People of migratory character, as we are who have left other lands and come to this, can not enter into the feelings of these Indians who are attached to their accustomed seats and think of the world as nothing outside of their own little horizon. We shall not expect these changes to be made without difficulty. And yet it would be desirable to see them accomplished, since large tracts of lands, now unused, would be thrown open for settlement, and several small communities of Indians would be removed from localities now more or less troubled with them.

But let it be remembered that these people are entitled to live, and to possess the means of living. In dealing with them there are duties devolving on ourselves which should not be evaded. If we cannot place these people in situations where they will have all the advantages they now possess, and likewise have opportunity for improvement and growth toward a better moral and material condition, it is our duty not to disturb them. But we think the changes proposed might with proper care, be effected without injury to them; and in that case the result would be a good one for the country.

LATEST ESTIMATES

There will be a clear Democratic majority in both branches of the legislature, not counting Independents of Democratic antecedents. In the senate the Democrats have one from Josephine, one from Coos and Curry, two from Lane, three from Linn, one from Benton, one from Polk and Benton, two from Yamhill, one from Clackamas, one from Multnomah, one from Wasco and Lake, one from Umatilla and one from Union. Total, sixteen. Since there are thirty senators in all, this is a majority of two. They are likely also to have the senators in Baker and Grant, which would give them two more. In the house they will have the following members: One from Lake one from Josephine, one from Coos and Curry, four from Douglas, two from Lane, two from Benton, six from Linn, two from Polk, one from Marion, two from Yamhill, two from Wasco, two from Washington two from Umatilla, two from Union and one from Baker. Total, thirty one out of sixty members, with a chance of one in Curry and one in Grant. Already we know that the Democratic majority on joint ballot is four, and there is every probability that it will be eight or ten.

Hines for congress has about 300 majority this side of the mountains. On the other side there will be 700 to 800 against him. He is therefore beaten by 400 to 500 votes. Beekman, for governor, has on this side about 800 majority, perhaps a little more. On the other side, Wasco is reported to be 200 Democratic, Umatilla 300, Union 118 and Baker 150. Grant is likely to give 40 or 50 Democratic majority. This would bring up the total Democratic majorities in the eastern counties to about 800, or just about a majority for Beekman on this side. Between Beekman and Thayer the result is very doubtful. The difference between them can scarcely be more than 100 votes, and very probably it will not be fifty. The remainder of the Republican state ticket is, we think elected. Certainly Earhart and Hirsch are successful.

Organizations in the eastern states have been actively engaged in inducing colored people to emigrate to Liberia. A colored man of Pennsylvania, William Nesbit, who was among those deluded into emigrating to that country has returned in disgust and written a full account of the situation there, in the course of which he exposes the false representations of those who are urging people to go to the 'Liberian Republic.' Of the so called republic itself, he says: It is a scheme of the most consummate villainy ever enacted. It has enlisted in its cause unscrupulous agents who, for pay, create and circulate the most egregious falsehoods for the purpose of fleecing the public out of their money. Emigration to Liberia, which was quite active for a time, has now nearly ceased.

In a speech recently made in the house of representatives by Townsend of Illinois statistics were quoted showing that, while the value of all the shipping American and foreign employed in our foreign trade is $200 000,000 the value of the railroads of the United States is $4 600 000 000 and while the value of all our imports and exports carried on the seas is $1 121 654 000 per annum the value of the commodities carried by rail alone in the interior is $15 000 000 000. This shows that the value of the railroads of the country is about twenty three times that of all the ships engaged in our foreign trade and that our internal commerce carried on railroads is one is sixteen times as great as that of our foreign commerce.

A correspondent writing from Paris under date of May 4 says: To give an idea of the great influx of strangers to Paris at the present time, we may refer to some statistics. In the first week of April there were 150 000 furnished apartments to be let at the end of about one week but 18 000 of these were unoccupied. In order to gratify the curiosity of those who may wish to explore them the great sewers are to be open for fifteen days. These sewers form a great subterranean city divided into streets and numbered corresponding with the world above them.

Senator Barnum of Connecticut one of the shrewdest of the Democratic political managers who cannot be accused of any sentimental or patriotic objections to the consideration of the presidential title promptly repudiates the Potter crusade so far as it contemplates the advancement of Mr Tilden's interests. On the other hand the New York *Sun* the acknowledged and accomplished mouthpiece of the fraud cry reiterates with inspired emphasis that the only possible object of the investigation is the placing of Tilden in the White House.

There is an end of the McGarrahan case as all things some time must have an end. The supreme court of the United States has decided that McGarrahan has no claim upon the New Idria mine by which he can establish a legal title. The case has been before congress or the courts for above ten years.

We are informed that dispatches from the eastern counties report these majorities for Thayer: Wasco 225 Umatilla 300 Union 120 Baker, 160 Grant 81 Total 902. Should these be verified Thayer is probably elected since Beekman's majority this side of the mountains can hardly exceed 800.

The New York *Herald* holds it to be undoubted that the movement through the Potter committee was instigated by Mr. Tilden. He has always prided himself on the secret, underhand method which he calls a "still hunt," and his disguised hand is apparent in this attempt.

The wife beater of Astoria is raving again. The things that proceed out of his mouth defile him without however enriching any body else. Of course he still thinks that Mitchell is lord paramount of Oregon and will be re elected.

A recent Washington special says a good many Democrats are dissatisfied with Representative Potter's letter believing that it will go far to convince many people that the purpose of the investigation started is a question of Hayes title.

A CARD.

IN ANSWER TO MR VESTAL'S CARD OF THE 3d inst I beg to say that I never had the $75 note in my possession. At the time of any dissolution of partnership he willfully neglected to include in our settlement, two notes from two respectable citizens of Portland one for $60 and another for $75 for neither of which have I ever received any benefit nor have they been paid by the aforesaid gentlemen whose names I can give if required. Mr Vestal held these notes and still holds them, though he falsely and maliciously declared that I took the $75 which was only done to cover his own conduct in retaining my cheque. He says that he held my cheque as a set off which he knows to be false or why did he offer through Mr Moss to compromise or settle the matter last Thursday by offering me a note for $100 six months after date which I refused to receive without an endorser. I admit that he got judgment against me in Justice Bybee's court but that was owing to my lawyer failing to act in a legal form. The judge in summing up the case stated in open court that he would have given judgment against Mr Vestal if my lawyer had conformed to the usual course of law.

"HOWARD'S CAMPAIGN —Mr Thomas A Sutherland who was volunteer aid de camp on Gen Howard's staff in the recent Indian war, has placed on our table a pamphlet entitled "Howard s Campaign against the Nez Perce Indians, 1877" Mr Sutherland accompanied the expedition and during the campaign acted as correspondent of the New York *Herald* and San Francisco *Chronicle* The contents of the pamphlet appeared originally in the *Standard* as serial letters The little book contains 40 pages and the printing is executed in a very neat style As a writer Mr Sutherland is concise and graphic and one cannot fail to become interested in the perusal of the pamphlet

CORNER STONE LAYING —The corner stone of Willamette Engine Co's new house will be laid some day next week probably about 2 o'clock on Tuesday At the meeting last night a committee consisting of Messrs Friedman, Simon, Sprague and Spencer were appointed to wait on the Grand Master of the Grand Lodge A. F & A M and invite him to conduct the ceremonies and the request will probably be granted The G L of Masons will meet in this city on Monday next and further arrangements concerning the laying of the corner stone will be made of which the public will be duly advised

FOUR MEN DROWNED PROBABLY --The following dispatch was received here Thursday at the O. S. N. Co 's office from the Cascades Mr. Peter Bracken, the hotel keeper on the Oregon road, reports seeing a small boat pass over the rapids this morning with four men in it. He says the boat was the kind known on the river as a flat bottomed skiff The men were evidently strangers and not acquainted with the river as they did not seem to realize their danger and made no effort to save themselves. The men were certainly drowned, as no signs of them have been seen below the rapids.

NUMBER OF ARRESTS —During the month of May the following arrests have been made by the police Drunk and disorderly 59 violating ordinance No. 984 2 disorderly conduct 9; carrying concealed weapon 1 abusive language, 3, violating ordinance No 931, 1, keeping a bawdy house, 2, disorderly by fighting, 6, contempt of court, 1 forgery 1; larceny, 1; violating ordinance No 2 074 1; violating ordinance No 2 177 5 deserter from U.S. army, 1, assault and battery 6 assault with dangerous weapon 1 Total number of arrests, 100

DROWNED.—Thursday about 8 30 o clock A. M., a man fell out of his skiff a quarter of a mile from the Oregon shore, just opposite St. Helen's wharf, and was drowned before assistance could reach him There was a very light breeze, and he must have fallen out while attempting to change his position in the skiff Immediately after the alarm was given several men went in a boat to assist him, but he sank long before they could reach the place. The body has not been recovered.

SEEDLING STRAWBERRIES —Mr J F Chipman, who resides near the corner of West Park and E street, has left at this office samples of seedling strawberries which were raised in his garden. The seeds of the cultivated variety known as "Wilson's" were planted by Mr. Chipman, producing vines from which the berries were gathered In ripeness and delicacy of flavor the seedling berries are fully equal to if not superior to the finest cultivated ones

STEAMER ANCON.—The *Alta* of June 1st, says: "The fine steamship *Ancon* leaves Broadway wharf at 1 P. M. to day, on the first excursion trip to San Cruz and Monterey. She will arrive back at 6 o'clock on Monday morning, and remain long enough at Monterey to give all hands a chance to see the sights in the neighborhood of both places. They are fine trips, and will not be missed by those who are posted in such matters."

ARRIVED.—The dispatches announce that the American ship *Pilgrim* arrived at Queenstown Saturday. It will be remembered that the *Pilgrim* crossed the Columbia river on the 28th of last December in company with the ill-fated *Nimbus*. She touched bottom and was forced to put in at San Francisco for repairs. The *Pilgrim* sailed from San Francisco on the 1st of February bound for her destination

INTO THE SHEEP BUSINESS —In the *East Oregonian* of a late date we observe the following paragraph: "Mr. E. A Wedding Postponed.

[From the Vancouver Independent]

Vancouver is getting a great reputation as a marrying town—or as a nice town to get married in. Runaways always come over here from Oregon, and persons often come who have no need to run away except for the fun of a quiet wedding The last thing startling in this line was a young couple who came over this week with Oregon license all duly made out and who were much disappointed to find that Oregon marriage licenses would not pass current with Vancouver marrying officials. As they had no witnesses in Vancouver to enable them to procure a new license they were obliged to postpone the wedding a day until they could return to Oregon and get up a common place wedding

BISHOP SCOTT GRAMMAR SCHOOL.

The corner stone of the new building for this school was laid by Bishop Morris with beautiful and impressive ceremonies yesterday afternoon Addresses were made by the Bishop Gen O O Howard and the Rev Mr Plummer A sealed copper box was laid in the stone and covered over with a stone slab and securely cemented The following is a list of the articles in the box A copy of the Holy Scriptures a copy of the Book of Common Prayer Catalogue of the Bishop Scott Grammar School for the years 187[illegible] Catalogue of St Helen s Hall for 18[illegible] copy of the *Oregon Churchman* May 30 1878 copy of Convention Journal for 18[illegible] [illegible] M Cormick s Almanac for 1878 the last number of the [illegible] Daily and Weekly Oregonian, *Daily Standard* [illegible] and Daily Oregonian of Nov [illegible] 187[illegible] containing a graphic account of the burning of the Grammar School

After the ceremony of laying the corner stone the Bishop delivered the following address

HISTORICAL SKETCH OF THE BISHOP SCOTT GRAMMAR SCHOOL

This institution was established in the summer of 1870 The gift of the beautiful piece of ground upon which the buildings were erected was obtained from the family heirs of John H Couch on the 1st of June of that year The corner stone of the south building was laid by Bishop Morris [illegible] addresses being made on the occasion by the bishop Rev W H Stoy Rev G R Bonnell and Hon Matthew P Deady

The building was designed and the plans for its construction drawn by Mr Charles Talbot The builder was Mr James Cummins

On the 6th of the following September—two months and one day after the laying of the corner stone the school was opened by Prof [illegible] H Allen as headmaster with 5 pupils The teachers and boarding pupils were accommodated in a private house until the 4th of September when the headmaster assistant teacher matron and ten pupils moved into the completed building

Prof Allen having successfully opened the school and conducted it to the close of the first term, resigned his place and was succeeded by Prof R W Laing, February 1871 The catalogue for the first year shows that there were [illegible] pupils in attendance The second and third years there were 92 in the fourth 8[illegible] in the fifth [illegible] one less in the following year and in this the last year there have been 90 names on our list This shows an average attendance of 78 pupils since the opening of the school

In the fall of the year of 18[illegible] a new wing including chapel school rooms dormitories and tower was erected at a cost of $1[illegible] 000 Prof Laing continued in charge of the school till the close of the term in 1875 when he was succeeded by the Rev [illegible] Burton

On the night of the 8th of November 187[illegible], the large school building with almost the whole of its furniture was burned providentially without any loss of life The school was again opened on the 31st December in the [illegible] Holiday s Addition to East Portland and continued in session there until the 20th of March 1878 when it was disbanded by the headmaster

The studies of the day pupils were resumed on the 1st of April under Messrs Miner and Grant in one of the buildings remaining on the Grammar School grounds and continued with very satisfactory results to the close of the present term This last year has thus been one of much loss and damage to this institution but a loss and damage that in no way lessen our sense of its importance of the promising field of usefulness it occupies and of its demands upon the interest and generous support of the citizens of this place

In the eight years of the existence of this school over three hundred boys have been for a longer or shorter period receiving instructions from its teachers About two thirds of these have come from our own city and the remaining number from widely separated parts of our state and the adjoining territory and from Wyoming territory, California, Sitka and the Sandwich Islands Many of these have already entered upon the responsibilities of business or professional life and are making good and satisfactory proof of the teaching and training here received

By reference to the catalogues it appears that the number of pupils in attendance this year—90—is largely above the average for all the previous years and had those applying been admitted we should have had a larger number of names on our catalogue than in any previous year in the history of the school.

I think that I can say with confidence that the prospects for a growing and permanent usefulness for this school were never brighter than on the fatal night that the unknown incendiary fired the large and well appointed buildings that occupied this place

I have been time and again gratified in my travels through my wide missionary field at the hearty testimony given by parents and pupils concerning the thorough teachings received at this school while they freely confessed the value of the care and culture such a school furnishes to those who are compelled to go from home

For this same work I am well assured there is a large and increasing opportunity before us Let us take a brief look at our capabilities for it

For the building we have a plan which when completed will present a handsome appearance and be very commodious in all departments. The chapel will occupy a more prominent and fitting place than in the former building and suggest that the worship of God and the teachings of His Holy Word are the corner stone and foundation of all the knowledge and culture here to be dispensed

The building will have accommodation for the headmaster's family and teachers with thirty boarders and school room for eighty pupils A laundry with windmill and water tank will occupy a separate building leaving a large high basement for an indoor play room

FINANCIAL CONDITION OF THE WORK

We have this plot of ground with this noble site the gift of generous patrons of this institution upon which I am happy to say there is no lien or incumbrance of any character We have an endowment fund of something over $10,000 the interest of which is available for the support of the school We have a cash building fund of $10 000 and additional subscriptions of $1 400 With these the erection of the building has been undertaken though it is foreseen that the sum required to complete it in all its parts and with all its appliances will not fall much below $15 000 For this deficiency we look to the intelligent liberality of the citizens of this place

There is not now the time and opportunity for enlarging upon the points that here present themselves and I shall be content with but a few additional thoughts

We claim that there is need here for this Christian school which shall always maintain a high standard of instruction and culture and in all the teachings of which the principles of our holy religion shall be present and prominent and that this need is being more and more felt by those to whom it may look for patronage If I am not mistaken this is the only Protestant boarding school for boys in all this state, or in the adjoining territory—the only school in which the boys are taken into the family of the headmaster kept constantly under his eye and always under and in his care and oversight. In this respect it supplies a very great and growing want in this country—a want that will increase and be felt more and more as the remote and outlying districts of our country are occupied with families, and as the increase of wealth gives our farmers, ranchmen, lumbermen and miners the means and the desire to obtain a better education and culture for their sons I hold that the best place to secure such education and culture is in a school—other things being equal—placed as this is in the largest town available In the present condition of this country and most probably for 25 or 50 years to come the very best place for a school of high character for scholarship and for culture will be in the commercial business and social center of the country To such a center everything tends the eyes of all the people are on such a place Here will gather the best scholars, the men of the highest attainments in all the professions and here will always be the most intelligent refined and cultivated society They will have a marked effect upon the school itself in the first place and in the second place upon its pupils The impress made upon all the attendants of a city by an intelligent and cultured population is largely in favor of a school thus placed The discipline of a city street the necessity of blackened boots and clean collars the required orderly and gentlemanly deportment of youth and young men who pass along the street the stimulus to observation and intelligence that a commercial city furnishes the surveillance of its society over masters and pupils and all that appertains to them in my judgment make a city the best place for the education and culture of boys I am aware that this is a large subject and that much remains to be said upon it and would be glad to discuss it further at a fitting time and place

Holding that in this city there is the most abundant room for this institution in whose behalf we are here to day that it might be made of peculiar value to this and coming generations and that its influences may be made to extend to the remotest parts of our state and beyond I commend the undertaking to your warm sympathy and general support and specially to His favor and blessing without which no good can come to our wisest plans and purposes and of whom we should ever be ready to say "Except the Lord build the house their labor is but lost that build it except the Lord keep the city the watchman waketh but in vain

GEN HOWARD S ADDRESS

Ladies and Gentlemen My mind is almost too much engrossed with Indian war business to permit reflection upon any other Just as I am about to leave the city to join my command already gathering in Idaho I receive the Bishop s pleasant invitation to come hither and tarry with you a few moments, while you lay this corner stone The corner stone stands as the symbol not simply of the size shape and material of the building proposed but of the purpose of the erectors of the edifice When a dwelling is designed the purpose of the home maker is usually a precious one He foresees the unity [illegible] and loving attachment that shall be within it from children to children s children The laying of the corner stone is to him and his the first fruits of [illegible] and sometimes years of careful thought planning and labor When a church building [illegible] long thought of [illegible] the corner stone [illegible] [illegible] that church the emblem of the ones spiritual that shall make up the [illegible] spiritual [illegible] When the corner stone of the [illegible] The [illegible] on which our country depends for its continued prosperity and its durability among nations are not its magnificent hotels though they cost half a million of dollars not the asylums for the imbeciles though they show a kindly spirit not the state buildings though they be built of the best granite not the merchants palatial structures though they fill entire blocks with iron and marble frontage looking toward the four quarters of the globe Not these, but the home family the living church and their nurseries the children s schools

If the corner stone of a church is pure [illegible] given as a Christ it be [illegible] is a Christian Church If the corner stone of the children s school is laid by those who love the Christian home and the Christian church as the emblem not simply of physical training and mental culture but as the emblem of the same pure [illegible] warming love which shall blend the training and the culture [illegible] such as we lay to day [illegible] I shall [illegible] institution and [illegible] call it the Christian school. I have sympathized deeply with Bishop Morris in his faithful laboring [illegible] establishing in this great northwest the three fundamental things already [illegible] the contemplation more durable than [illegible] framework [illegible] I mean the family the school the church

It is [illegible] that no division of [illegible] people may [illegible] the whole [illegible] It is true that human nature with human infirmity will [illegible] the faith of the faithful and that every little [illegible] of His humblest child [illegible] with the divine blessing [illegible] Christian [illegible] the school takes its highest function when with the home and the church it can produce this best type of manhood the Christian

I am an infidel of any type [illegible] years [illegible] but he should remember that we who call ourselves Christians embrace within the term faith virtue knowledge patience godliness brotherly kindness charity and if there be any other thing against which there is no [illegible] law the humblest effort to accomplish this Christian character is [illegible] by the Almighty and brings its possessor within the purview of the Christian name within the sunlight of God s limitless love which shines best as reflected from the Son of Righteousness Let them this corner stone the edifice which it shall support and the generations of children and youth that shall go in and out of its doors be His let them be Christ s

MR PLUMMER S ADDRESS

I look upon the erection of a Christian institution of learning as both a protest against merely secular education and a hopeful sign for the future I have never been among those who cry out Educate educate as though popular education were a panacea for all the ills of life I believe that just as a man who does not know how to spend money is better off without money so a man who does not know how to use education is better off without education There is no class of men no profession in life which I venerate more than that of teachers Certainly there are no men to whom the world owes more and to whom it has paid less But I do not consider every man whom fortune or necessity has placed at the head of a school a teacher It is not every learned man who is fitted for this high office He may be like the village master whom Goldsmith tells us of—one upon whom the rustics gazed

And still the wonder grew
That one small head could carry all he knew

And still not be really a teacher A teacher is first of all one who has himself learned and is able in a thousand ways to teach others of the one great central fact of existence—the omniscience and omnipresence of the Great God Such a man is a teacher and such a man when he does his work well the world should highly prize

I would like to see emblazoned upon the front of this Grammar School the words The fear of the Lord is the beginning of wisdom They are the words of a proverbially wise man and have been uttered in one form or another by many another wise man since the world began And they are absolutely true For what is wisdom? Whatever it is I am sure we all know what it is not It is not the bare memory of any number of facts however well arranged and tabulated in the brain Facts may exist in a man s [illegible] without being [illegible] either use or purpose or design And wisdom is certainly the power to use facts and understand facts the power to apply facts to living issues and living demands And how can the man who has no fear of the Lord do this Suppose his scholars are studying the languages either living or dead What can he make out of them He has nothing for them to stand upon—no foundation truth from which they spring and they must be to him as the work of the Chinese juggler—simply unintelligible Language he may say was developed by men for man's needs as those needs arose

But there are ten thousand things in language which point back and backward still to a beginning And with no author in existence who antedates man with no author from whom language as all other things springs the different tongues must be to a man as they were to the men of Babel—simply confounding A man can have no wisdom unless he can see in the words he uses at least more than matters of common convenience And so of other things How can the man who has no fear of the Lord teach geology physiology or psychology The earth shows us that it contains just such things as man in this life needs—coal to warm and light his dwelling iron to build his ships and stones with which to construct his houses Yet such a man does not know how they all come there or who put them all there And how can he teach wisdom from them? He knows no father in heaven who has arranged all these things and so the facts he has mastered will be to him as hieroglyphics The stream cannot rise higher than its source and the pupil cannot generally rise above the spiritual level of his master We are told that the North American Indians will find their way through the forest by marks which other men would easily miss Wisdom I conceive is the power to use the facts of this world—the marks of God s hand in air and earth and sea—so as to come out at last into the beautiful land beyond

I am glad of the erection of this school then to help on this glorious work and I hope and pray that it may rise Phoenix like from its ashes a nobler and purer institution to do good work for God and humanity

FINANCE AND COMMERCE.

Financial.

THURSDAY EVENING, June 6, 1878.

Gold in New York, 101.

Legal tenders in Portland buying 99¼, selling par.

Silver coin, 2@3 per cent discount.

The local money market is still quiet, and no important change is noticeable. There is a fair demand from parties in the produce trade more [illegible], and some call for investment in [illegible] on real estate but the supply of funds applicable to loans is reported ample to meet all legitimate needs, and rates are unchanged with some firmer feeling on part of lenders.

Domestic Produce.

The excitement attending our state election appears to have had no very important effect upon the markets, and though the movement of home products is light, it is about as active as is usually observed at this season of the year. The improved condition of the roads enables buyers to reach some sections where a considerable surplus wheat is still held and receipts of that cereal have been rather larger than last week. All advices from abroad show declining markets, and prices here have dropped 10@15 cents per cental during the week past. Millers are buying enough to run on until harvest, but offer only $1 60@1 62½ at best, while shippers will not go above the first figures for immediate or after harvest delivery. There is some speculation concerning the course of prices for the new crop, but it is still very early to make predictions with safety. Present appearances, however, indicate that the market will not open above $1 60, and not below $1 50 per cental. The political troubles in Europe have been settled for the time being, and the crops everywhere in America almost are reported as very promising, two facts which have borne prices downward for a few days past. Receipts in Great Britain of imported wheat are also reported almost unexpectedly heavy, and will go to largely make up for the deficiency of stocks on hand which was noted a month or two ago. The situation generally in regard to this cereal is not encouraging to holders. Flour is in supply adequate to the wants of the trade and, in sympathy with the decline in wheat, prices have gone down about 25 cents per barrel during the week. In other cereals nothing is being done, except in the home trade, which is fairly met by current receipts. Oats are dull in San Francisco, but the quantity received is but little more than sufficient to meet the requirements for local consumption. Our quotations give the range of prices at which the market is what may be called steady and dull. Provisions are in more than sufficient supply to meet the demand here, and the requirements of the San Francisco market are more fully than ever met by shipments from the east. Nearly all parties in the trade here have full stocks and occasionally lots are disposed of at a loss to the first buyer. The markets abroad show some little improvement, but its effects here have yet to be felt. Dairy products of all kinds are exceedingly dull, and for any but choice lots there is no demand. Eggs are quiet at the same price given one week ago, at which they have ruled since. Potatoes, as will be seen by our quotations below, have again advanced, and some dealers quote the fancy figure of $2 per 100 pounds. The condition of the wool trade has not materially changed since our last weekly report. The quotations given in advices by telegraph from San Francisco and eastern markets denote but little fluctuation in those markets. Receipts here are quite large, but there is still a wide difference between the views of buyers and holders, so that transactions or actual sales are of less than average volume for this time in the season, a great deal of that reaching here going into warehouse to await a better market. Much is also forwarded to San Francisco. Owing to the variety of qualities of this staple grown in this state and the adjoining territory quotations have quite a wide range.

New York Freights and Markets.

NEW YORK, June 5.—The freight market remains quiet, although there seems to be little more dead weight offering than there was. Rates are firmer although one of the lines is yet taking freight at old quotations.

At the time the steamer State of California was purchased by the Russians she had quite a lot of freight engaged for her voyage to the Pacific in view of her early departure, but the transfer of the vessel led to cancellation of these engagements so far as that steamer was concerned, and the agents have now chartered the bark Willard Mudgett, 575 tons, to take forward such of the freight as may be desired, and she has already engaged nearly her full capacity. She will go to Portland direct.

The ship St. Charles arrived to-day and will take her place in one of the lines for San Francisco with a general cargo.

The offices of the Pacific Mail S. S. Co are being removed to their wharf. Rumors are in circulation of a change in the San Francisco agency. That is, the company propose to send a man there and open their own office, and Vice President Rilley is spoken of as the proper person. Richard Hawes has been appointed freight contracting agent, the position he occupied formerly.

Markets dull: flour less active, 5@10c lower; wheat dull, easier; pork, demand firmer $9 75@10; Rio coffee active and easier, ¼c lower; refined sugars better demand, ⅛c higher; teas without animation; hides dull, holders views above buyers.

Boston Wool Market.

BOSTON, June 5.—No material change and manufacturers are purchasing cautiously and only for present wants. Some desirable lots of choice Ohio and Pennsylvania fleeces offering at 37@38c, but without finding buyers, and new wool from all points continues to meet with slow sale. Both dealers and manufacturers are now anxiously looking for opening prices in the interior and from 25 to 30c is about the range fixed upon for mixed Wisconsin, Ohio and Pennsylvania, and those prices leave very little margin at current rates. California wool in moderate demand at 20@30c for spring, with sales of new spring mostly at 22@26; super and X pulled wools in fair demand at 28@42½; mostly at 33@40.

Shipping Intelligence.

The steamship Idaho, hence for San Francisco, will sail at 3 o'clock to-morrow (Friday) morning.

The steamship Geo. W. Elder, from San Francisco, will be due here Saturday.

The barkentine Portland, from San Francisco, is discharging a cargo of assorted merchandise at Flanders' wharf.

The Br bark Barracouta has cleared for Liverpool with 20,505 cs salmon and 1,217 bbls flour. Value of cargo, $119,275.

The Br bark Ardendee has arrived from Callao consigned to Balfour, Guthrie & Co., and under charter to Rodgers, Meyer & Co.

DR. PAUL M. BRENAN.

His Wonderful Success

IN THE TREATMENT OF ALL

Chronic and Difficult Diseases.

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS public and private lectures the true principles of health and life to both male and female. He has also warned them against habits that would be likely to produce disease, in plain and comprehensive language. But where he has found them crushed and broken down by disease, mentally and physically, he has restored them to health and happiness, for it is well understood that without health there can be no happiness.

DR. BRENAN

has made a specialty in the treatment of the following diseases: Catarrh, Bronchitis, and all diseases of the throat and chest, by an entirely new system only known to himself. Diseases of the Kidneys and Urinary Organs, including Spermatorrhea, Seminal Weakness or premature loss of Manhood. In the treatment of these diseases he has made a world wide reputation by his astonishing success, not only on this Coast but throughout the whole United States. Diseases of the stomach, bowels, liver and kidneys as well as all diseases of the blood and skin he has become master of, and never fails to give relief at once, and permanently cures the case if he is applied to in time.

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and is perfectly familiar with all female complaints, and understands their delicate and refined organization, as well as the proper remedies which should be used to allay their suffering and restore them to perfect health.

THE DOCTOR HAS THIS ADVANTAGE

over most physicians—he can tell the patients' disease the moment he comes in contact with them without any aid from the individual. This accounts in part for his great professional success.

All surgical operations can be performed by his skillful hand, and the patient need not fear the result.

DR. BRENAN

will send to those living at a distance and who cannot well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally, and will forward the proper medicines, or instruments, to any part of the country with full instructions and advice. Each letter requiring advice or list of questions, must contain two postage stamps.

Everything strictly confidential and honorable.

THE DOCTOR

has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify.

CAUTION.

Persons coming to Portland, requiring medical treatment of the proper kind, who desire to consult with me, will please beware of persons who may try to coax them away to other so-called Doctors, through pretended friendship for the patients. Look out for them; they are knaves, prompted by selfish motives and what they can make. Be sure and ask for DR. PAUL M. BRENAN, the *Medical Lecturer*, and read his sign on his door.

GENERAL NEWS.

BY TELEGRAPH TO THE OREGONIAN.

Meeting of Tammanyites.

New York, June [illegible]—The Tammany hall [illegible] to-night with a full [illegible] presided and delivered [illegible] which was adopted as the [illegible] of the views of Tammany hall. [illegible] The address while approving [illegible] opposes any [illegible] as dangerous [illegible] in its results.

Races at St. Louis.

St. Louis, June [illegible] race, three heats, [illegible] favorite. 2d time [illegible] was made [illegible] was the fastest [illegible] weights ever run in America.

Gen. Crook's Opinion.

Omaha, June [illegible]—Gen. Crook is of opinion that the Idaho Indian troubles may require [illegible] to subdue them. He [illegible] visited that [illegible] and took personal observations at the agency, and it is his opinion that the principal trouble arose from the fact that the Indians have not had enough food. He attached no blame to the agents for this, as he thought they had faithfully and honestly distributed supplies furnished by the government, but the fact is the government supplies have been short. While at some agencies the Indians depend partly on the game they can kill, there is no game of any account in the vicinity of Idaho agencies where the Indians depend wholly upon government supplies. In proportion to other agencies the Bannacks and other Idaho Indians are fed a good deal less than the Sioux. In regard to the reported excursion of Sitting Bull Gen. Crook says that when he was in Chicago recently, Sitting Bull sent word that he wanted to come back, and that he would come peaceably, but that he got no encouragement. He does not believe the report that Sitting Bull is going on the war path, and as to the Indians in the department of Platte he thinks they can easily be held in check.

Freemasonry.

New York, June 7.—The grand lodge of Freemasons of this state to-day adopted the following:

Resolved, That we refuse to recognize as a Freemason any person initiated, passed or raised in a body where the existence of a Supreme Being is denied or ignored.

WASHINGTON CITY.

Tillamook Lighthouse Bill.

Washington, June 7.—The senate committee to-day reported favorably on a bill appropriating $[illegible] for the construction of a first-class lighthouse on Tillamook Head, Oregon.

The Stanley Matthews Letters.

Washington, June 7.—The president to-day received a resolution of the Potter committee requesting him to furnish the originals or authenticated copies of the letters of Stanley Matthews to the president and the president's reply intended to secure an appointment for James E. Anderson. Several days may elapse before the request can be complied with, as in the earlier part of the administration thousands of letters were received at the executive mansion, but for want of time were not indexed, and therefore it will be necessary to make a careful search for the desired correspondence.

Anti-Resumption Defeated.

Washington, June 6.—The advocates of the repeal of the specie resumption act were defeated in a test vote in the senate to-day. They antagonized the resumption repeal bill against the consideration of the army appropriation bill, avowing their belief that if the former were not taken up to-day there would be no possibility of further financial legislation this session. The issue being thus distinctly joined the vote resulted in a final defeat of the repealers and inflationists by a majority of 2.

Levisse's Testimony.

Washington, June 7.—In Levisse's testimony before the investigation committee to-day it appears that he cast his vote as an elector for Hayes and Wheeler, and signed one set of certificates to that effect, but that when another set was made out in order to correct some technical defect he was not present, and his name was signed by another party.

BY ATLANTIC CABLE.

The Attempt on the Emperor's Life.

Berlin, June 7.—The *National Zeitung*, the organ of the Liberals, publishes a communication from the deputies who recently voted against the anti-socialist law, explaining that they did so because they considered Hodel's attempt on the emperor's life was the isolated act of a miserable creature. Dr. Nobeling's systematic arrangements and his network of communications, however, they say, justify extraordinary measures to save and heal the state. The emperor's appetite is better, but his condition is otherwise unchanged. Dr. Nobeling's brothers, who are officers of the army, have arrived here. They were received by a high officer in attendance on the emperor. They showed themselves anxious to give all the information in their power. Nobeling has been quite unconscious since Sunday evening, and constantly watched; everything he says is recorded. The emperor receives daily reports of Nobeling's condition.

Condition of the Emperor.

Berlin, June 7.—The shot left in the arm of the emperor include one buckshot, which, on account of its size, may have to be extracted while the smaller shot will be allowed to remain. It is untrue that Nobeling has been operated on. The emperor's strength is increasing, swelling of the right arm is subsiding. Condition of the other wounds is normal. There are no symptoms of fever. The minister of state is considering measures for immediate adoption in the interest of order and public security, and also what measures shall be submitted to the federal council.

The German Government.

Berlin, June 7.—The *National Gazette*, the organ of the Liberals, says if the government comes before the reichstag asking extraordinary powers to protect the dynasty and country, we are convinced such powers will be readily granted by a majority of the reichstag, the government of course accepting the responsibility for the necessity of such powers and their constitutional application.

Public Sentiment in Germany.

London, June 7.—The following facts and rumors show the state of public feeling in Germany:

The editor and manager of the newspaper at Glauchau has been arrested for the publication of socialistic writings. A committee has been formed in Berlin to purchase the house, No. 18 Unter den Linden, and to convert it into a place of religious worship. Numbers of manufacturers have resolved to discharge all their workmen attending socialist meetings.

Between 30 and 40 persons have been arrested in various towns for expressing regret at the failure of Nobeling's attempt.

At [illegible] and [illegible] men have been arrested, charged with being cognizant of Nobeling's attempt.
